To Whom It May Concern:

RE: Chandler Concrete Company, Inc.

Dear Sir/Madame:

I would like to take this opportunity to offer a testimonial of what a fine company Chandler Concrete Company, Inc. ("Chandler") is to work with. I personally worked at Chandler for 14 years before starting my own concrete finishing company. During my tenure with Chandler I had the opportunity to advance my career from driver, plant manager, and finally sales. Chandler always treated me and other employees with the greatest respect and worked with its' employees to help them learn and progress into other areas of the business. Upon my decision to depart from Chandler and start my own business, I was given the confidence from the owner, Mr. Tom Chandler, that I would succeed based upon my evidence of progression within Chandler. This says a lot from the owner to wish his employees well in seeking other endeavors.

Since beginning my own concrete finishing businesses in 1992 I have exclusively used Chandler for all my jobs. The reason I have been so loyal to Chandler is because of the quality of product and the quality of its employees I deal with on a day-to-day basis. The dispatch office is always courteous and reliable. My concrete is consistently delivered on time and the drivers are always knowledgeable and willing to help make our job easier in any way possible. If a problem arises with the quality of concrete (which is very rare), both quality control and the sales office follow up and resolve the problem with the up most concern for my satisfaction.

It is for all these reasons stated above that I am loyal to Chandler, as they are to me, and that I will continue to remain loyal to using Chandler for as long as I am in business. Chandler has always been superior in every aspect of their operation and is rated number one within the circle of other concrete finishers I know.

Sincerely,
